26-5	Comprehensive systems for recycling byproducts and wastes produced during highway construction and maintenance works
Vol.2 7 (July 2003)	
27-1	Technology transfer to Malaysia: Construction of porous pavement
27-2	One year after the implementation of the Construction Materials Recycling Act
27-3	Activities of "Water in Rivers" Secretariat in the 3rd World Water Forum
27-4	Proposing a "Design for national development for the next 100 years"
Vol.2 8 (November 2003)	
28-1	Construction of Surikamigawa Dam for Flood Control and Water Supply
28-2	Success of the environment friendly road construction
28-3	Percentage of population provided with sewage treatment service in fiscal 2002
28-4	The 1st General Meeting of IFNet in Stockholm
28-5	Road improvement policies to enhance roadside environments in the Tokyo area
Vol.2 9 (January 2004)	
29-1	SIO-SITE
29-2	Action plan drawn up for utilizing construction-related soil
29-3	Diesel vehicle regulation goes into effect in the metropolitan area
29-4	International Flood Network (IFNet) be participating actively in many relevant international conferences
29-5	Intergovernmental Agreement on Asian Highway Network adopted
Vol.3 0 (August 2004)	
30-1	New Housing Development Project in a Tokyo Waterfront Area
30-2	Guidelines for Development of Warning and Evacuation System against Sediment-Related Disasters
30-3	The Landscape Law
30-4	Roadside rest areas Michi-no-Eki
Vol.3 1 (January 2005)	
31-1	Global Mapping
31-2	Recommendations for the 21st Century of Revolution and Water
31-3	Establishment of policy guidelines and building design Guidelines to mitigate heat island effect
31-4	Website on the analyzed data on land
Vol.3 2 (August 2005)	
32-1	The Metropolitan Expressway Network
32-2	New indicators of river water quality
32-3	"Multilingual guide service" and "Destination guide service for handicapped people" in EXPO 2005
32-4	Manual for Waste water Quality Standards for the Reuse of Treated Wastewater
Vol.3 3 (November 2005)	
33-1	Restoration technique of large-scale wooden castle tower by traditional Construction method restoration of Ozu castle tower
33-2	A quiet hotel under elevated railway
33-3	Revision of Flood Prevention Law and Sediment-related Disaster Prevention Law
33-4	Challenges of Japan Water Agency for IWRM in Asian countries
Vol.3 4 (January 2006)	
34-1	Construction and management technologies Japan Water Agency has been developing
34-2	Present states and prospects of measures for mitigating congestion
34-3	Development of "Water Path Forming Poles" for the bio-solids gravity thickening process
34-4	Soda Methods, Key to Solving the Mekong Riverbank Erosion
Vol.3 5 (March 2006)	
35-1	Honshu-Shikoku Bridges and Technologies
35-2	Construction and management technologies Japan Water Agency has been developing
35-3	The Longest Four-Span Continuous Hybrid Cable Stayed Bridge in the World
35-4	Launch of "Global Flood Alert System (GFAS)"
Vol.3 6 (August 2006)	
36-1	CALS/EC by Ministry of Land, Infrastructure and Transport
36-2	IFNet Holds 2 Sessions at the 4th World Water Forum in Mexico City
36-3	Pilot Program for the Effective Use of Road Space
36-4	Anti-earthquake Reinforcement Map of Bridges on Emergency Transportation Roads
Vol.3 7 (October 2006)	
37-1	Seismic Retrofit of the Minato Bridge, the Third Longest Truss Bridge in the World
37-2	The 8th Infrastructure Technology Development Award 2006 of JUICE
37-3	The Invaierowan Method
37-4	CORINS/ TECRIS
37-5	ETC: Electronic Toll Collection System - A Tool for New Road Management -
Vol.3 8 (January 2007)	
38-1	Nationwide "Road Rating Maps for Comfortable Drive" (Trial Version)
38-2	Compression-Type Steel Damper-Brace: a Seismic Reinforcement Technology for Railway Viaducts
38-3	Water-Retentive Ceramic Block with Capillary Action "FUJI"
38-4	Bid Bond System
